Dear Chairman Knabe:

I am writing to you in regard to the Crenshaw / LAX Transit Corridor Project that is scheduled for Metro Board action on May 26, 2011. I would like to convey my support for the proposed alternative that includes the Leimert Park / Vermont Station and placing below ground the segment of the alignment from 48th to 59th streets within the City of Los Angeles. I believe this proposed project would benefit Leimert Park, South Los Angeles, and the City of Los Angeles as a whole.

Sincerely,

Eric Garcetti
